ADDRESS 3 Inglewood Lodge
Lisburn BT28 2SS

SKILLS HTML5, CSS3, JavaScript, jQuery. HTML5 Boilerplate, Twitter Bootstrap 3, Zurb Foundation 4, Wordpress themes, PHP, Sublime Text, Mamp, phpMyAdmin, ASP .Net MVC 4, C#, Razor, Visual Studio 2014., SASS (with either Compass or Bourbon), Less, Photoshop, Git, Handlebars.js, Underscore.js, Google Charts API, Google Maps API, and Mercury.js

Employment Web Developer
Gravity: Intelligent Digital Products (January 2012 – Present)

Developing modular front-end CRM systems in HTML5, CSS3, and JavaScript (jQuery, Google Maps API, Google Charts), leveraging Twitter Bootstrap 3 and using ASP.Net MVC 4, C# and Razor to manage and integrate with iOS and/or Android applications via both custom integration and third party API's.

Building W3C standards based, business and product websites: developing Wordpress themes from scratch, into fully content managed, mobile first, responsive websites, using technologies like HTML5 Boilerplate, Twitter Bootstrap 3 and Zurb's Foundation 4 frameworks, HTML5, CSS3 (Compiled using Less or Sass with Compass/Bourbon), JavaScript, (jQuery, handlebars.js, Google Maps API), and PHP.

Built the front-end of a high performance single-page MVC application using JavaScript (mercury.js, underscore.js), HTML5, CSS3 (using SASS, Compass) and Twitter Bootstrap 3 while using Invision (web and prototyping tool) for communicating design requirements and feedback during daily sprints over Google Hangout.

Collaborate with the design team to oversee projects transition from wireframes, initial design ideas and designed mockups to ensure the overall structure will work with responsive design, embellishing usability and accessibility while finding new ways to use existing technologies in a manner relevant to the client/organisation's audience or market.

Develop by keeping progressive enhancement methodologies in mind by using the best and newest technologies on the web platform without sacrificing accessibility for older browsers. Using the Modernizr library, Compass/Bourbon Mixins to provide graceful degradation for older browsers.

Following an agile methodology for team projects to help assess a projects direction throughout the development lifecycle, by taking part in weekly sprints or iterations. This is also documented using Jira for sprint entry, logging work and bug reporting.

Front end Developer

Rehabstudio (September 2011 - December 2011)

Working as part of an agile scrum team of six developers on a bespoke, white label project that involved extra training in London, and weekly sprints throughout.

My job was to write semantic and clean HTML, CSS and JavaScript over a Python framework. The front end visually relied heavily on parallax scrolling and multiple svg's were used and animated throughout. The project was contained on a Git repository.

Web Designer & Developer

JAMIJO Investment Property (2009)

Part of a years work placement through my foundation degree course at Belfast Metropolitan College. While there, I spent most of my time designing, developing and maintaining Websites to advertise JAMIJO's portfolio of oversea properties.

Team Leader & Quality Control

Sebden. Steel Service Centres (2002 - 2010)

Duty Manager (Lisburn Dublin Road Belfast & Carryduff)

Pizza Hut Ireland. (1998 - 2002)

Education

University of Ulster, Jordanstown - 2011
First Class Honors Degree in BSc Hons Interactive
Multimedia Design.

Belfast Metropolitan College - 2009
A Pass, with Commendation in a Foundation
Degree in Science Multimedia.

A pass , in an H.N.D Graphics & Communication.

Lisburn College - 1998
A Merit & 4 Additional in G.N.V.Q Art & Design
Advanced Level 3

GCSES

Maths and English Language, English Literature,
Geography, Double Award Science, Art and French

Interests

I have an interest in web development and enjoy researching and using the latest technologies. I'm a subscriber to tutsplus.com (Video-based courses and tutorials) and more recently completed a course on Google's Angular.js. I'm extremely interested in Native app building with a particular interest in the Swift programming language. I enjoy organising and going on cultural city breaks with recent trips to Tallinn, Venice, Florence, Rome, London and New York. I enjoy keeping fit, I have a 5 year old Siberian Husky that I enjoy taking on long walks. Member of Siberian Husky Club of Northern Ireland. I have a full clean driving license.
